

Guilherme Jacob

Front-end Developer

ABOUT ME

With 8 years experience in full-stack development. Committed to writing a well-designed, testable and efficient code using current best practices in web development. A fast, hard-working and efficient learner, proficient in a variety of programming languages and multimedia web tools.

Fluent in web development with stacks MEAN - MERN and mobile (React Native, Flutter, Kotlin), with a back-end affinity and passionate about searching for new technologies and the powerful veteran tools.

EDUCATION

Computer Science (Bachelor)
Federal University of Ceará

Software Engineer (Bachelor)
FIAP

Systems Development (Technician)
CEPA

LANGUAGES

Portuguese	Spanish	English	French
Native	Advanced	Advanced	Intermediary

SKILLS

Javascript	CSS / LESS / STYLUS
Node.JS	SASS / SCSS / POST CSS
React	PHP
Angular.JS	Android (Java/Kotlin)

Angular 2/4/7/8/9	Flutter
Vue	React Native

C++	DATABASE
C#	MongoDB
VB.NET	Cassandra
Python	MariaDB / MySQL
GO Lang	PostgreSQL

Java

TESTING

Mocha
Jest
Jasmine

CLOUD

AWS
Google Cloud

KNOWLEGE

Grid & layout
UI/UX Design
Agile Scrum
CI/CD

INTERESTS

RESUME

Itaú Unibanco / Since Jan 2021

Senior Front-end Engineer

Angular 8, Kotlin, Swift

Responsible for the architecture and development of new projects related to Private segment investments.

Banco Votorantim / Nov 2018 - Jan 2021

Senior Front-end Developer / Senior Mobile Developer

React, Angular.JS, Angular 7, Kotlin, Flutter

Collaborated with designers to create clean interfaces and simple, intuitive interactions to ensure a pleasant client-side experience; Planned and designed scalable, secure and real-time systems; Quickly prototyped new features to confirm feasibility and performance improvement; I wrote extensible and maintainable code in a team environment; I was responsible for the architecture and migration of new technologies, developing all new credit card products and developing transaction information security.

Solera Holdings / Aug 2018 - Nov 2018

Full-stack Developer

React, Node.JS, .NET Core

Collaborated closely with other team members to plan, design and develop robust solutions. Coordinated the implementation of new features; Modified existing software to fix bugs, update interfaces and improve performance; Advised and implemented the change of programming language to a new technology in order to build a scalable and cross-platform software.

Actuar / Dec 2017 - Jul 2018

Full-stack Developer

Kotlin, Angular.Js, Angular ^2, React & React Native, C#, .NET Core

Collaborated with designers to create clean interfaces and simple, intuitive interactions to ensure an improved client-side experience;
Designed embedded systems software applying key principles of computer science, engineering and mathematical analysis; Systems planned and designed in a scalable, real-time and secure way; New features quickly prototyped to confirm feasibility and performance improvement; I wrote maintainable and extensible code in a team environment.

MelhorKlick / Mar 2017 - Dec 2017

Full-stack Developer

PHP, React, Angular ^2 & Node.JS

Coordinated the project and development of the team's software according to the client's needs. Regularly consulted with clients on project status, proposals and technical issues; Helped build and improve highly available, scalable, real-time and secure systems; Provided software solutions consistent with product roadmap and development plan milestones.

Plena Accounting / Feb 2016 - Mar 2017

Full-stack Developer

PHP, React, Angular ^2 & Node.JS, PostgreSQL

I worked collaboratively to design and implement a cross-platform management software; Designed an easy-to-maintain database structure. I investigated bugs to reproduce issues and develop software fixes.
